**SUPPLEMENTARY INFORMATION:**

Title: Procedural Requirements for Requests for Interpretative, No-Action, and Exemptive Letters (OMB Control No. 3038–0049).

This is a request for extension of a currently approved information collection.

**Abstract:** Commission Regulation 140.99 requires persons submitting requests for exemptive, no-action, and interpretative letters to provide specific written information, certified as to completeness and accuracy, and to update that information to reflect material changes. Regulation 140.99 was promulgated pursuant to the Commission’s rulemaking authority contained in section 8a(5) of the Commodity Exchange Act, 7 U.S.C. 12a(5) (2000). Regulation 41.3 requires securities brokers and dealers submitting requests for exemptive orders to provide specified written information in support of such requests. Regulation 41.3 was promulgated in response to the requirement in the Commodity Futures Modernization Act of 2000 that the Commission establish procedures for requesting such orders. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the CFTC’s regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981). The Federal Register notice with a 60-day comment period soliciting comments on this collection of information was published on December 30, 2013 (78 FR 79408).

**Burden Statement:** The respondent burden for this collection is estimated to average 0.91 hours per response, ranging from 0.75 hours for preparation of a notice to 9 hours for preparation and submission of a request for a no-action, exemptive, or interpretative letter. These estimates include the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; and transmit or otherwise disclose the information.
