SUPPLEMENTARY INFORMATION:

Agenda

The Committee will review alternatives to designate a Habitat Area of Particular Concern in Southern New England and identify a preferred alternative for Council consideration at the April meeting. As needed, recommend additional analysis or information to be developed by the Plan Development Team to support Council final action in April. They will also receive an update on the discussions that have occurred between the Plan Development Team and Coonamessett Farm Foundation staff related to development of a final report for their Exempted Fishing Permit study in the Great South Channel Habitat Management Area. The Committee will receive updates on offshore energy, cable, and aquaculture projects of interest to the Council and provide feedback as appropriate. They will also discuss and recommend updates to habitat-related Council research priorities. Also on the agenda is a progress update on habitat-related Council work priorities. Other business may be discussed as necessary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Determination Regarding Review of Nomination for Hudson Canyon National Marine Sanctuary

AGENCY: Office of National Marine Sanctuaries (ONMS), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice.

SUMMARY: In January 2022, the National Oceanic and Atmospheric Administration (NOAA) requested written comments to facilitate the five-year review of the nomination for Hudson Canyon National Marine Sanctuary (NMS). NOAA requested relevant and new information pertaining to its 11 sanctuary nomination evaluation criteria. In particular, NOAA sought any additional details about the area's natural or cultural resources, emerging threats to these resources, and evolving management efforts or human uses in the proposed area (*e.g.*, wind energy proposals). After reviewing the information gathered through the public process and completing an internal analysis of readily-available and relevant information on the proposed area, NOAA has determined the Hudson Canyon NMS nomination will remain on the inventory until at least February 23, 2027.

DATES: This determination is applicable on February 23, 2022.

ADDRESSES: Matt Brookhart, Eastern Regional Director, NOAA Sanctuaries Eastern Region, 1305 East West Highway, N/NMS, Silver Spring, MD 20910, or at Matt.Brookhart@noaa.gov, and at <https://nominate.noaa.gov/nominations/>.
