Seasonal Prohibition on Fishing for or Possession of Mutton and Lane Snapper in U.S. Caribbean Federal Waters

WHAT IS HAPPENING AND WHEN:

NOAA Fisheries reminds fishermen and the public of the upcoming seasonal closure on fishing for, or possession of, mutton and lane snapper in U.S. Caribbean federal waters.

- This closure begins at 12:01 a.m., local time, on **April 1, 2020**, and extends through 11:59 p.m., local time, **June 30, 2020**.
- The prohibition on possession does not apply to mutton and lane snapper harvested and landed ashore prior to the closure.

The U.S. Caribbean exclusive economic zone consists of those waters extending from the three-nautical mile seaward boundary of the Territory of the U.S. Virgin Islands and the nine-nautical mile seaward boundary of the Commonwealth of Puerto Rico, out to 200 nautical miles offshore.

WHY THIS CLOSURE IS HAPPENING:

This seasonal closure protects mutton and lane snapper when they are spawning (reproducing) and therefore more vulnerable to fishing pressure.

SIGN UP FOR TEXT MESSAGE ALERTS - FIND OUT ABOUT IMMEDIATE OPENINGS AND CLOSURES

NOAA's Text Message Alert Program allows you to receive important fishery related alerts via text message (SMS). Standard message & data rates may apply. You may opt-out at any time.

Text alerts you may receive include:

- Immediate fishery openings and closures
- Any significant changes to fishing regulations that happen quickly
